ALTONI
MADE IN ITALY

La casa è sempre, a suo modo, un mondo unico, ognuno la realizza in funzione delle proprie scelte, di un gusto personale, di una ricerca di benessere che è sempre individuale, di una creazione di atmosfere che vuole ritrovare ogni giorno, A questo universo di emozioni e stati d'animo, **Altoni Leather** dedica la sua collezione divani, un progetto che valorizza comodità e libertà di spazio. Forme, stili, materiali, per una pluralità di proposte perché anche la scelta del divano è, infondo, un modo per realizzare la bellezza di ogni giorno.

La maison est toujours, a sa façon, un monde unique. Chacun la réalise en fonction de ses propres choix, de ses goûts, d'une recherche du bien-être qui ne peut être qu'individuel, d'une création d'atmosphères à retrouver chaque jour. **Altoni Leather** dédie à cet univers d'émotions et d'états d'âme sa collection de canapés, un projet qui met en valeur la commodité et la liberté de l'espace. Les formes, les styles et les matériaux sont déclinés en plusieurs propositions car au fond, le choix du canapé est, lui-aussi, une façon de réaliser la beauté de chaque jour.

The house is a unique world, each person realizes it along with their own choices, personal taste, individual research of wellness, creation of atmosphere. To this universe of feelings, **ALTONI LEATHER** dedicates its own sofa's collection with a project that gives value to the comfort and freedom around you. Shapes, styles and materials for your choices, to create everyday's beauty.

Pasquale Tricarico

ALTONI

MADE IN ITALY

Stile Creatività e Dinamicità Made in Italy

Altoni Leather Italy S.P.A. nasce nel 1994, fondata da Pasquale Tricarico.

L'azienda è divenuta in breve tempo leader nella progettazione e realizzazione di salotti di fascia medio-alta grazie alla costante e continua attenzione nella scelta dei materiali e delle pelli.

Altoni Leather ha sempre riservato una particolare attenzione nella cura dei dettagli, nella eleganza e nel comfort che caratterizzano tutti i modelli delle diverse collezioni, disegnate da esperti designer Italiani capaci sempre di interpretare le esigenze e le tendenze del mercato di appartenenza.

La maison Altoni Leather est née en 1994, et vient fondée par Mr. Tricarico Pasquale. La société est devenue en très peu de temps leader sur le projet et la réalisation de salons de moyen-haut de gamme grâce à la constante attention pour le choix des matériaux et des cuirs.

Altoni Leather a toujours réservé une particulière attention pour le soin des détails, pour l'élégance et le confort qui caractérisent tous les modèles de différentes collections, dessinées par des experts italiens capables de comprendre les exigences et les tendances du marché du moment.

25 anni

25 ...anni di passione e professionalità

The leather

Ogni pelle è unica ed è differente per ogni divano. Le variazioni che possono esistere da un pezzo di pelle ad un altro ne sono il marchio d'autenticità, che contribuisce a rendere il vostro divano unico. La conciatura della pelle, il cosiddetto "tannage", consiste in un laborioso trattamento delle pelli d'animale per migliorarne le proprietà, come l'impermeabilità all'acqua, resistenza all'abrasione, solidità alla luce, calore, ecc.

Chaque peau est unique et différente pour chaque canapé. Les variations qui peuvent avoir existé pendant un certain temps le cuir à l'autre sont la marque de l'authenticité, qui contribue à rendre votre diva unique. Le bronzage de la peau, le soi-disant "tan na ge"; il consiste dans le traitement répugnant des peaux d'animaux et dans l'amélioration de ses propriétés, telles que la perméabilité à l'eau, a résistance à l'abrasion, la résistance à la lumière, chaleur, etc.

Each skin is unique and is different for each sofa. The variations that may have existed for a while leather to another are the mark of authenticity, which contributes to making your diva unique. The tanning of the skin, the so-called "tan na ge"; it consists in the abhorrent treatment of animal skins and to improve their properties, such as water permeability, abrasion resistance, light fastness, heat, etc.

Textiles

In quest'epoca incentrata sul consumismo si sta pian piano tornando ad avere un'attenzione in più verso il pianeta. Raccolta differenziata, abolizione di stoviglie in plastica e obbligo di utilizzo di sacchetti biodegradabili sono solo alcuni dei passi che si stanno compiendo per un **futuro più sostenibile**. Tutto ciò riguarda anche le nuove produzioni. L'**industria tessile** ha un ruolo cruciale a livello ambientale perché incide notevolmente sul consumo globale di acqua e sulle emissioni di gas serra presenti nell'atmosfera. Per questo è importante una nuova consapevolezza sulla scelta di **tessuti ecologici** e **tessuti riciclati** in grado di ridurre l'impatto ambientale. Esaminiamo con molta attenzione le richieste di ogni Cliente in modo da offrire non solo un tessuto di qualità, ma soprattutto un prodotto che soddisfi appieno le specifiche tecniche che ci vengono richieste.

Dans une société caractérisée par la consommation de masse, les gens recommencent petit à petit à faire plus d'attention à la planète. Tri des déchets, interdiction de la vaisselle en plastique et obligation d'utilisation de sachets biodégradables sont parmi les initiatives prises en faveur d'un avenir durable. Cette prise de conscience concerne également le secteur de la production. L'industrie textile a un fort impact sur l'environnement parce qu'elle contribue significativement à la consommation mondiale de l'eau et aux émissions mondiales de gaz à effet de serre. Le choix de tissus écologiques et recyclables est alors très important afin de réduire son impact sur l'environnement. Nous examinons et satisfaisons les requêtes de chaque client, en lui offrant non seulement un tissu de qualité mais aussi un produit qui ait les caractéristiques techniques demandées.

In this era centered on consumerism, we are slowly returning to have more attention towards the planet. Separate collection, abolition of plastic dishes and obligation to use biodegradable bags are just some of the steps that are being taken for a more sustainable future. All this also concerns new productions. The textile industry plays a crucial role in the environment because it has a significant impact on global water consumption and greenhouse gas emissions in the atmosphere. For this reason, a new awareness on the choice of ecological fabrics and recycled fabrics that can reduce the environmental impact is important. We carefully examine the requests of each customer in order to offer not only a quality fabric, but above all a product that fully meets the technical specifications that are required of us.

GOTHAM

“

La combinazione
per ogni esigenza
di spazio

”

La totale comodità di G O T H A M può essere percepita anche solo guardandolo. La dimensione delle imbottiture della seduta, e soprattutto del bracciolo, donano una comodità ineguagliabile. Si può ottenere lo stesso comfort anche riducendo le dimensioni di larghezza; questo avviene grazie alle diverse misure disponibili.

Le confort total de G O T H A M peut être perçu même en le regardant. La taille du rembourrage du siège, et surtout de l'accoudoir, offre un confort inégalé. Le même confort peut également être obtenu en réduisant les dimensions de largeur; cela se produit grâce aux différentes tailles disponibles.

The total comfort of G O T H A M can be perceived even just by looking at it. The size of the padding of the seat, and above all of the armrest, give unparalleled comfort. The same comfort can also be obtained by reducing the width dimensions; this happens thanks to the different sizes available.
