## The leather

Ogni pelle è unica ed è differente per ogni divano. Le variazioni che possono esistere da un pezzo di pelle ad un altro ne sono il marchio d'autenticità, che contribuisce a rendere il vostro divano unico. La conciatura della pelle, il cosiddetto "tannage", consiste in un laborioso trattamento delle pelli d'animale per migliorarne le proprietà, come l'impermeabilità all'acqua, resistenza all'abrasione, solidità alla luce, calore, ecc.

Chaque peau est unique et différente pour chaque canapé. Les variations qui peuvent avoir existé pendant un certain temps le cuir à l'autre sont la marque de l'authenticité, qui contribue à rendre votre diva unique. Le bronzage de la peau, le soi-disant "tan na ge"; il consiste dans le traitement répugnant des peaux d'animaux et dans l'amélioration de ses propriétés, telles que la perméabilité à l'eau, a résistance à l'abrasion, la résistance à la lumière, chaleur, etc.

Each skin is unique and is different for each sofa. The variations that may have existed for a while leather to another are the mark of authenticity, which contributes to making your diva unique. The tanning of the skin, the so-called "tan na ge'; it consists in the abhorrent treatment of animal skins and to improve their properties, such as water permeability, abrasion resistance, light fastness, heat, etc.

## Textiles

In quest'epoca incentrata sul consumismo si sta pian piano tornando ad avere un'attenzione in più verso il pianeta. Raccolta differenziata, abolizione di stoviglie in plastica e obbligo di utilizzo di sacchetti biodegradabili sono solo alcuni dei passi che si stanno compiendo per un **futuro più sostenibile**. Tutto ciò riguarda anche le nuove produzioni.

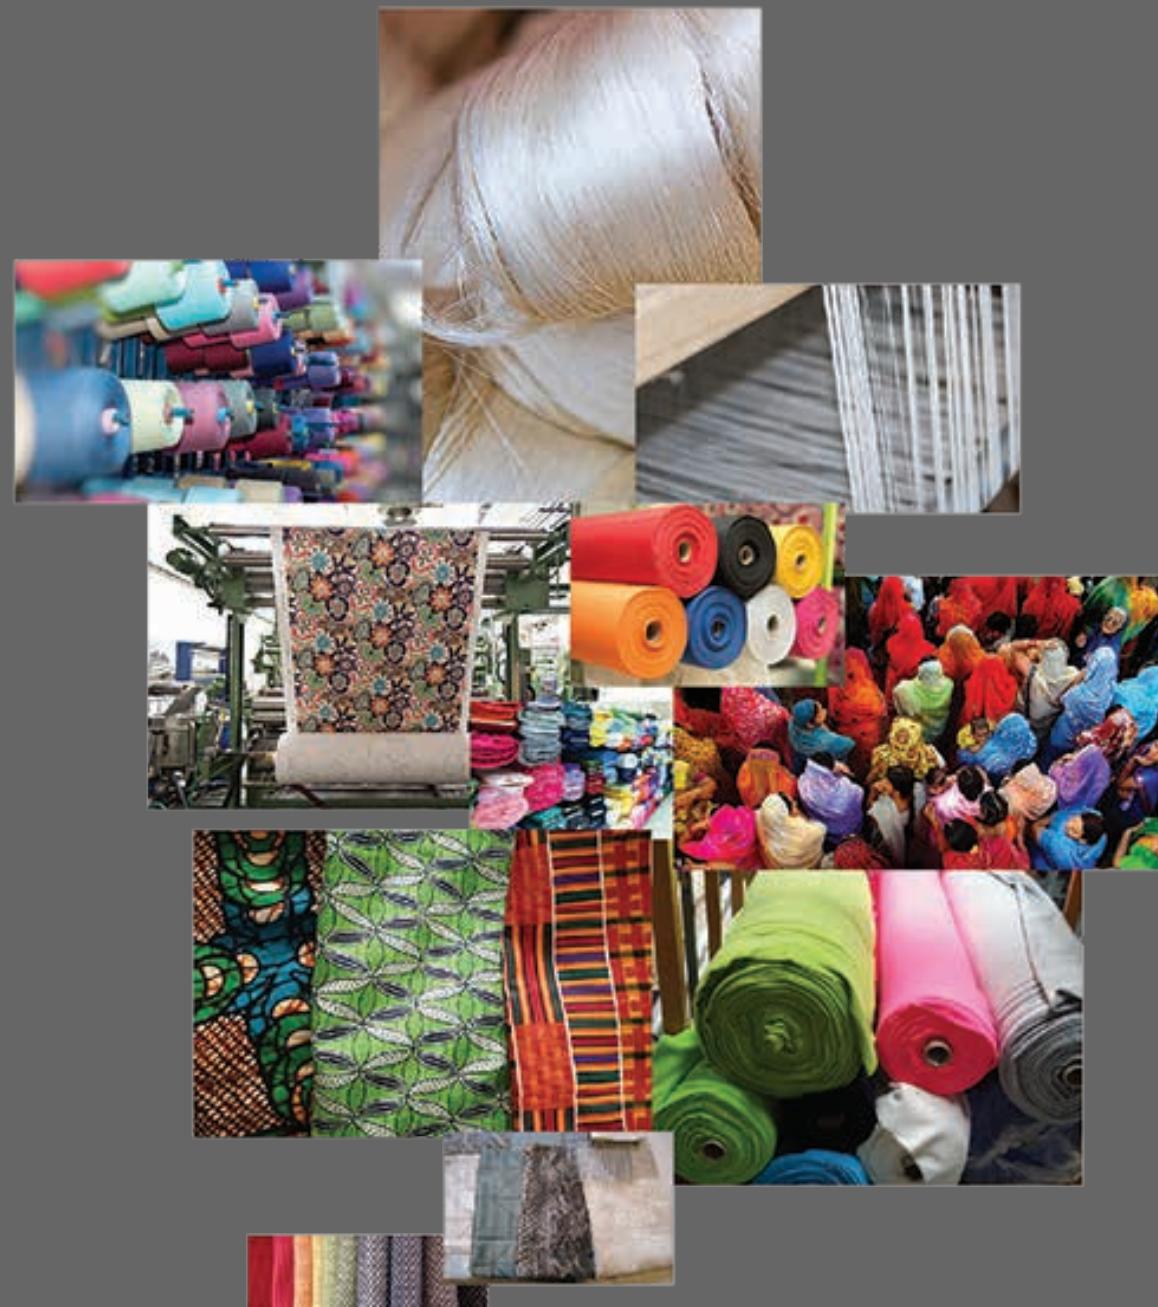

L'**industria tessile** ha un ruolo cruciale a livello ambientale perché incide notevolmente sul consumo globale di acqua e sulle emissioni di gas serra presenti nell'atmosfera. Per questo è importante una nuova consapevolezza sulla scelta di **tessuti ecologici** e **tessuti riciclati** in grado di ridurre l'impatto ambientale.

Esaminiamo con molta attenzione le richieste di ogni Cliente in modo da offrire non solo un tessuto di qualità, ma soprattutto un prodotto che soddisfi appieno le specifiche tecniche che ci vengono richieste.

Dans une société caractérisée par la consommation de masse, les gens recommencent petit à petit à faire plus d'attention à la planète. Tri des déchets, interdiction de la vaisselle en plastique et obligation d'utilisation de sachets biodégradables sont parmi les initiatives prises en faveur d'un avenir durable. Cette prise de conscience concerne également le secteur de la production.

L'industrie textile a un fort impact sur l'environnement parce qu'elle contribue significativement à la consommation mondiale de l'eau et aux émissions mondiales de gaz à effet de serre. Le choix de tissus écologiques et recyclables est alors très important afin de réduire son impact sur l'environnement. Nous examinons et satisfaisons les requêtes de chaque client, en lui offrant non seulement un tissu de qualité mais aussi un produit qui ait les caractéristiques techniques demandées.

In this era centered on consumerism, we are slowly returning to have more attention towards the planet. Separate collection, abolition of plastic dishes and obligation to use biodegradable bags are just some of the steps that are being taken for a more sustainable future. All this also concerns new productions. The textile industry plays a crucial role in the environment because it has a significant impact on global water consumption and greenhouse gas emissions in the atmosphere. For this reason, a new awareness on the choice of ecological fabrics and recycled fabrics that can reduce the environmental impact is important. We carefully examine the requests of each customer in order to offer not only a quality fabric, but above all a product that fully meets the technical specifications that are required of us.

## INDUSTRIAL

L'arredamento industriale nasce negli anni Cinquanta a New York con il recupero e il riuso di spazi dismessi che in precedenza erano utilizzati per ospitare uffici, industrie, centri direzionali.

Da allora, migliaia di vecchi depositi e magazzini sono stati recuperati e utilizzati come abitazioni, rivendicando la bellezza delle fabbriche. È poi arrivato alla notorietà grazie ai film americani e alle serie tv ambientati in questi spazi, e grazie all'affermarsi della Pop Art capeggiata da Andy Warhol e la sua Factory.

Le style industriel est né dans les années 1950 à New York avec la récupération et la réutilisation d'espaces désaffectés qui servaient auparavant à abriter bureaux, industries, centres d'affaires. Depuis lors, des milliers d'entrepôts anciens ont été récupérés et utilisés comme habitations, revendiquant la beauté des usines. Il est ensuite devenu célèbre grâce aux films et séries télévisées américains qui se sont déroulés dans ces espaces, et grâce à l'émergence du Pop Art mené par Andy Warhol.

The industrial style was born in the 1950s in New York with the recovery and reuse of disused spaces that were previously used to house offices, industries, business centers. Since then, thousands of old warehouses have been recovered and used as homes, claiming the beauty of the factories. He then became famous thanks to the American films and television series which took place in these spaces, and thanks to the emergence of Pop Art led by Andy Warhol.

## LOFT

Basta la parola loft a farci sognare: loft, infatti, è per eccellenza il sogno dello spazio, più di tutto; loft evoca l'immagine di un ambiente che grazie, alla sua intrinseca conformazione "spaziale", alla prevalenza della sensazione di volume, piuttosto che di superficie, rimanda al concetto di libertà.

Il suffit le simple mot "loft" pour nous faire rêver : le loft est l'espace ouvert par excellence. Il nous fait penser à une pièce qui, grâce à sa configuration spatiale mettant l'accent sur le volume plutôt que sur la surface, donne un sentiment de liberté.

The word loft is enough to make us dream: loft, in fact, is par excellence the dream of space, most of all; loft evokes the image of an environment which, thanks to its intrinsic "spatial" conformation, to the prevalence of the sensation of volume, rather than surface, refers to the concept of freedom.

# DIVANI

L' arredamento moderno elegante è un connubio molto apprezzato per le case contemporanee, proprio perché particolarmente in auge tra le tendenze degli ultimi anni, grazie alla sua particolare capacità di rendere impeccabile sia l'arredamento che i complementi che si scelgono per valorizzare l'ambiente.

Per ogni stanza l'accortezza e l'attenzione ai dettagli deve essere differente, cercando di tenere fede ai propri gusti senza dimenticare l'aspetto più importante.

Le style moderne et élégant est l'une des tendances de ces dernières années. C'est un mélange très apprécié dans la décoration des maisons contemporaines grâce à sa capacité de rendre impeccables aussi bien la déco que le mobilier qu'on choisit pour valoriser l'ambiance. Chaque pièce demande une attention aux détails particulière, tout en respectant ses propres gouts et sans oublier l'aspect le plus important.

The elegant modern furniture is a combination highly appreciated for contemporary homes, precisely because it is particularly popular among the trends of recent years, thanks to its particular ability to make impeccable both the furniture and the accessories that are chosen to enhance the environment. For each room the care and attention to detail must be different, trying to keep faith with your tastes without forgetting the most important aspect.

# URBAN

Lo stile urban, lo dice la parola, è lo stile che rappresenta le grandi metropoli, multiculturali e variegate. Per questo motivo, lo stile urban si presta ad essere super personalizzato con elementi d'arredo diversi tra loro, se non in contrasto, tra lampadari di cristallo, mobili dalle linee essenziali e poltrone vintage.

La città e la strada sono i temi principali da tenere presente quando si vuole arredare seguendo questo stile.

Comme son appellation le laisse facilement deviner, le style urbain est un style qui s'inspire aux grandes métropoles multiculturelles et hétéroclites. Ce style peut s'adapter selon la personnalité de chacun et mélange des éléments de déco très différents les uns des autres, ou en contraste même : suspensions en cristal, meubles aux lignes essentielles, fauteuils vintage, etc. L'important dans une décoration de style urbain, c'est de recréer l'ambiance de la rue dans son intérieur.

The urban style, the word says it, is the style that represents the big cities, multicultural and variegated. For this reason, the urban style lends itself to being super personalized with different furnishing elements, if not in contrast, between crystal chandeliers, furniture with essential lines and vintage armchairs. The city and the street are the main themes to keep in mind when you want to furnish following this style.
